

Write an algorithm and implement C program for multi-queue round robin technique for process scheduling. Display the execution sequence (Gantt Chart) and average waiting time (AWT).

Process ID	Arrival Time	Execution Time
P0	0	7
P1	0	12
P2	0	40
P3	0	13
P4	0	6
P5	0	44
P6	0	8
